

EMMANUEL EZE

Frontend Developer

github.com/emma-junior

I'm a dedicated and highly motivated frontend software developer with almost 2 years of experience in Front-End development. I'm passionate about web development, thus the reason for my ever increasing desire to keep on learning and improving in such a field.

WORK EXPERIENCE

KOBO 360 - Frontend developer[Intern]

FEBRUARY 2022 - PRESENT

I joined Kobo 360 as a frontend developer intern, while learning new skills I'm also collaborating with other developers in building amazing features, maintaining existing features and in general ensuring a seamless usage of tech with logistics.

Afiari Technologies - Frontend developer[Intern]

DECEMBER 2021 - MARCH 2022

I worked closely with a senior engineer to develop the user interfaces for a sophisticated ecommerce web application. During such time i contributed in building complex layouts and components, and also managed app state with Redux and React redux

SKILLS

- HTML5/CSS3/SASS/Bootstrap/Tailwind
- Git Version Control
- Vanilla Javascript/ES6
